To Whom It Concern,

We began your program on October 2, 2006. We are approximately a 1.5 million dollar in revenue per year General Contracting Company. We lacked organization and the ability to grow and be profitable given our current policies and systems and procedures. We were running a multi-million dollar business like a "Mom and Pop Pizza parlor". It was time for change if we wanted to build our business and make a better life for ourselves, our families, and the lives and families of our employees. It was time for each of us to step – up and take responsibility for the success of our business.

In just the first day, there was excitement and hope for the success of our company. It had been a long time since any of us had a genuinely good and comfortable feeling about the future of our company. In my opinion, that alone made the entire process worth every penny spent. Our consultant, _____, has been easy to talk to, knowledgeable and positive in his direction for our success. His implementation of your program was basically painless. It changed the way we viewed and performed certain tasks, but for the most part it really elaborated and made useful a lot of the information that (in our minds) we already had. Using straight - forward spreadsheets and systems, your program implemented systems we knew we needed, but lacked the knowledge and most importantly, time to implement. In just over 3 weeks, our company has made a complete switch into high gear. Thank you to International Profit Associates Inc. and especially to SBC

We look forward to the growth and success of our company.

A Sincere Thank You,
